

AIRQUEST AVIATION

Flight School Simulator

WHAT TO DO DURING THIS SNOWY WINTER SEASON?

Want to keep your flying skills from getting rusty? Don't let the Blizzard of 2010 affect your flight training! Schedule time with your instructor on the Flight Simulator located at AirQuest Aviation!

The **Elite Pro Panel Basic ATD Model PI-135 Simulator** is available for all your training needs. Sit with your instructor in the convenience of the classroom and continue your education even when there is snow and cold outside.

Private Pilot Students: 2.5 hours may be logged on the simulator which will count towards your license. The Simulator will improve your instrument scanning abilities, allow you to learn the GPS or VOR system and refine your checklist procedures.

Instrument Pilot Students: 20 hours may be logged on the simulator which will count towards your rating. The Simulator will improve your instrument scanning abilities and checklist procedures, reduce your overall cost to obtain an instrument rating and improve your holding entries, holding patterns, approaches and missed procedures.

- > Multiple aircraft types
- > Multiple cockpit configurations
- > Multi-Engine conversion available
- > All training may be logged
- > Instrument Proficiency Checks may be completed
- > Weather conditions and aircraft failures modified to simulate real-life emergencies
